## CURTAIN CALL

As the countdown to the opening of Dubai Opera begins, now seems like an opportune time to look at the design details behind the UAE's first operatic venue. Beyond its show-inspired façade, WA International, the design firm responsible for the interiors, has opted for Fior di Bosco Italian marble for the front of house area, Poltrona Frau leather for the auditorium seating and Lasvit for the jaw-dropping 118-foot-high chandelier in the grand lobby. All these elements combined are sure to bring Dubai's Opera District to life when Dubai Opera opens for its inaugural show on August 31.
