HIGH NOTE

An ideal gift for your favourite architect or designer, Bose has just introduced to the UAE market the *SoundLink Micro* Bluetooth speaker, its smallest, most rugged portable speaker yet. Measuring just 9.83 centimetres wide and deep, and 3.48 cm high, and weighing a mere 0.29 kilograms, the *Micro* is tiny – until you turn it on. With unmatched sound for its size, and tested beyond its IPX7 waterproof rating, the *Micro* lets you enjoy music, take and make calls, and access Siri or your Google Assistant – out loud and anywhere.

AMERICAN HISTORY

Give the gift of material culture with Pierre Frey's *Arapahos* collection. It takes us on a journey from the Rockies to the Great Plains, to discover the first nations of America. The imagined and reinterpreted drawings and motifs combine to create a sense of modernity and audacity. The colours mix harmoniously – at once traditional with ochre and blues while also contemporary with a mélange of violet, mimosa and emerald green. Composed of embroideries with geometric patterns, jacquards, stripes and prints, *Arapahos* proposes a view of the American Far West that is situated somewhere between fantasy and reality.

FLOWER POWER

New year, new space. Sanderson is starting 2018 by celebrating iconic and well-loved designs from its historic archive with the launch of its Vintage Cushion collection. Dating back to the last century, these archetypal designs have been recreated in fresh new colourways: *Vintage Rose*, *Peony Brights* and *Primrose & Dove*. Nostalgic yet vibrant, the new offerings are a contemporary way to bring classic florals into the home.

LITTLE GEMS

The best things come in small packages. Haute Déco's *Petals* collection features doorknobs in the timeless shape of the quatrefoil. Reminiscent of Van Cleef & Arpels' iconic *Alhambra* jewellery collection, these jewels for the home represent hope, faith, love and luck. The quatrefoil has been used throughout the ages, in Moorish and Middle Eastern architecture, in Byzantine churches, Middle Ages cathedrals and Venetian palaces. It was a beloved motif of the 19th-century Gothic revival, and is well documented in pattern books such as *The Grammar of Ornament* by architect Owen Jones. hautedeco.com
