1. The Crackle Fire Screen from **John Lyle Design** is just one of this talented metal-smith's many offerings. Shown in polished bronze and available in all JL bronze finishes except "blanc," its dimensions are 40 by 30 by 6.75 inches.

2. The Sundial Mirror from **Anthropologie** is a truly one-of-a-kind piece as its hand-made, artisanal qualities add classic style to any room. It's available in three sizes and is constructed of iron, glass, and engineered hardwood.

3. The Royal Palm Print from **Lisa Hunt Creative** evokes the feel of antique textiles. Inspired by the artist's time in Bali, it places her characteristic gold—used as a unifier throughout her collection—up against a rich grey background.

4. **Haute Deco** has introduced a new range of handles called Sensation. Bronze, patterned elements are encapsulated in varying shapes of crystal resin, creating an ethereal, mystical effect.
