PRODUCT SHOWCASES: Kitchens and Exteriors

WALL CERAMICS WITH A TWIST

The Senio-City collection is a chevron wall ceramic that can be installed for kitchen backslashes or dining room accent walls. A big trend right now is a 'fade-out' effect where tiles fade from one colour to another or in the case of the Senio-City, fading from a high polished to silky-matte finish. The chevron pattern is a reinvented classic that looks great in both traditional to contemporary spaces.

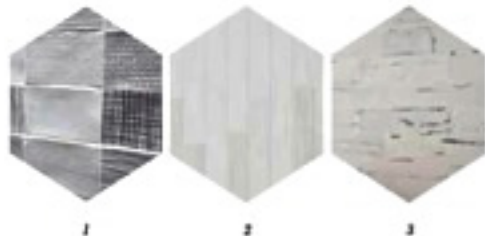

Senio-City 3x10 chevron, 5 colour, matte or polished; for pricing contact senio.ca

the NEW WOOD LOOK

The 300 collection is a glazed porcelain tile suitable for residential and commercial installations. Its superior technical qualities include a slip-resistant factor all while assuring easy maintenance—perfect for a kitchen. Choose between multiple formats, and six colour palettes.

For more information or pricing, contact congres.ca

TAILORMADE TILES

The Crafted tile collection combines the beauty of handcrafted clay, the charm of timeless bricks, and the boldness of turning subway tiles on their sides. The collection is comprised of a number of non-traditional tiles, like the black and white collection, which ranges from hand-drawn horizontal lines to more intricate horizontal and vertical lines. For pricing and shipping information, hastingstilebath.com
