SIGNATURE TOUCH

Creating an ambience of bespoke luxury in the home depends on getting the finest details right – and Haute Déco's signature monogrammed door handles are highly distinctive. The door handles, stamped with personalised engravings, are carefully created in an atelier in south-west England whose focus is on heritage and craftsmanship. A trademark formula of special Cristalle resin is used: the translucent material acts as a perfect foil for each individual client's artwork, which is brought to life by specialist craftsmen. The resin has timeless appeal and is extremely durable and will not chip. And unlike glass, it can be expertly cast around metal. The secret to the soft glow of the finished design is in the multiple stages of hand-polishing that is required as part of the process. The end result is a small-scale work of art: clients have scope to indulge their creativity, as almost any motif or design can be used as the basis for the engraving – from personal monograms to family crests, contemporary coats of arms or company logos.

SCENTS OF SUMMER

Lava, the Emirati artisan candle brand, has presented *The Sea Collection* for summer. The marine-inspired collection is made up of four candles; *Seaful*, *Sea Dream*, *Evening Walk* and *Pink Dusk*. Each candle is formed with natural, hand-picked shells, all of which are taken from the beaches of the UAE. The collection comprises fresh and lights scents. *Evening Walk* boasts bottom notes of white musk and vanilla, matched with floral top notes of orange and lily. *Seaful* is a calming candle – top notes include eucalyptus and crisp spearmint, working in harmony with bottom notes of Lava's signature cedar wood and clove. *Sea Dream* has top notes of mint and grape leaves aligned with strong bottom notes of fresh vanilla. The *Pink Dusk* candle has middle notes of patchouli, giving a fresh earthy scent upon burning. Lava candles are stocked in Bloomingdale's, Harvey Nichols and Galleries Lafayette.

DESIGN AGENDA

Manchester Furniture Show
Manchester, United Kingdom
14-16 July

Stockholm, Sweden
19-25 August

Formex
Stockholm, Sweden
20-23 August

High Design – Home & Office Expo
Sao Paulo, Brazil
21-23 August

MAGIC CARPET

Working in Dubai Design District (d3) for the last four years, rug designer Cecilia Setterdahl's brand is Carpets CC. Her latest creation, 'I looked everywhere and found one piece of gold', is in keeping with her collection as a whole. Setterdahl uses bold colours and geometrical combinations to create bespoke rugs. Her latest rug design tells the story of finding a treasure, in this case one piece of golden silk. Hand-knotted in finest New Zealand wool and real silk, it is carved to form perfect lines, and has a three-dimensional effect. It's perfect for making a statement in a minimalist interior or as complement to contemporary furniture.
