## EYE CANDY

Haute Deco launched its new handles at this year's Decorex show. Displayed in selected colours for the first time, the *Fleur* collection recalls the intricate designs of Victoriana and the resurgence of all things botanical with its stylised tulip-shaped doorknob for doors and wardrobes. The new *Aether* series of bronze cabinet knobs is in a style reminiscent of Giacometti's *Cubist I* composition, and explores the idea of carving the inner section of a series of distorted cubes. And a new colour for 2017 has also been added: mandarine. Inspired by the striking notes of fire opal, it will be part of the *Gems* colour palette and available in every shape and form throughout the *Cristalle* collection. *hautedeco.com*

## RELAXED LUXURY

Luxury design atelier Kart Group is now offering the new *Manet* easy chair, manufactured in the Brianza region of Italy by qualified artisans. Created for reading and relaxing in style, its gentle embrace soothes while also offering maximum freedom of movement; all its pillows can be removed. Its soft 'stems' give users a personal experience and the ability to constantly reconfigure it to create a new seat. Its soft vinyl fabric has anti-microbial and anti-acaros treatment, delivering durable hygienic freshness, while its pillow linings are removable and washable. *04 348 8169 / kartgroup.net*

## LOUNGE ACT

Steelcase, the global leader in office products and systems, has just launched *Umami*, a new versatile lounge furniture system designed to create spaces with which people will feel an emotional connection. The innovative new system speaks directly to the youth population in the UAE with its focus on employee happiness, design, performance and materiality. *04 369 7838 / steelcase.com/ae*
